WASH volunteers are on repairing facilities amid heavy rain

## Overall humanitarian context and needs

Cox's Bazar recorded 135mm of rainfall accumulation in the last 24 hours. Excessive rainfall further caused extreme flooding and landslides in several parts of the Rohingya camps and the adjacent host community areas in Ukhiya and Teknaf including Cox's Bazar Sadar upazila and municipalities. Till now **21,606** people from the Rohingya community have been affected and **13,432** displaced from their shelters. Approximately **39,200** people from Teknaf have been affected, with **2,000** people evacuated to cyclone shelters due to flash floods and landslides. In Cox's Bazar municipality most low-lying areas have been newly flooded and about **1,800** people have been evacuated to cyclone shelters from potential landslides zones. The local administration requested support for food, water and hygiene kits including COVID-19 safety equipment. Other upazilas have started primary loss and damage and need assessment.

Approximately **292** shelters from the camps were damaged within the last 24 hours. Camp 7 was severely affected as **169** shelters were damaged within the last 24 hours. 30 WASH facilities, 5 learning centres, 1 child-friendly space, 1 mental health and psychosocial support centre and **3,497** household vegetable gardens were reported to be partially damaged or destroyed as of the last 24 hours.

BRAC has been active throughout the camps and host community areas with emergency response activities. The general food assistance team has distributed **1,796** packets of hot meals within the camps and **1,684** packets of hot meals for the host community. High energy biscuits were distributed to **720** families in the camps. Today, 89 shelter kits were provided to affected families in the camps. BRAC will continue to provide support throughout the camps and host community areas with specific needs and supporting families to rebuild their shelters where possible.

## Areas affected by the rainfall

Approximately eighteen camps and three upazilas affected

Community psychosocial volunteers are providing psychological first-aid

Volunteers are reconstructing damaged facilities

Cooked, hot meals distributed to the community

Safety unit volunteer evacuating children to safer places

# Weather forecast | Cox's Bazar

1 August - 7 August 2021

This document is supported by daily weather forecast news from Bangladesh Meteorological Department.

**Rainfall:** Maritime ports have been advised to lower the signal. But the monsoon is fairly active over Bangladesh and moderate over North Bay. Light to moderate rain/thunder showers accompanied by temporary gusty wind is likely to occur at most places over Cox's Bazar with moderately heavy to heavy falls for upcoming week.

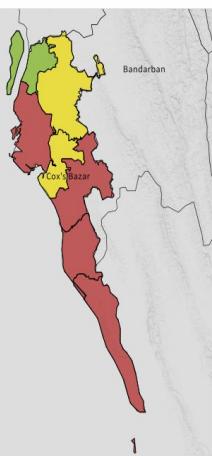

**Flash Flood:** Ukhia, Teknaf, Ramu and Maheshkhali may experience flash floods in the wake of heavy rain.

**Coastal situation:** Meanwhile, on 4/5 August, the sea may be again a bit rough as there is a possibility of forming a new system in the North Bay.

## Flash Flood Alert

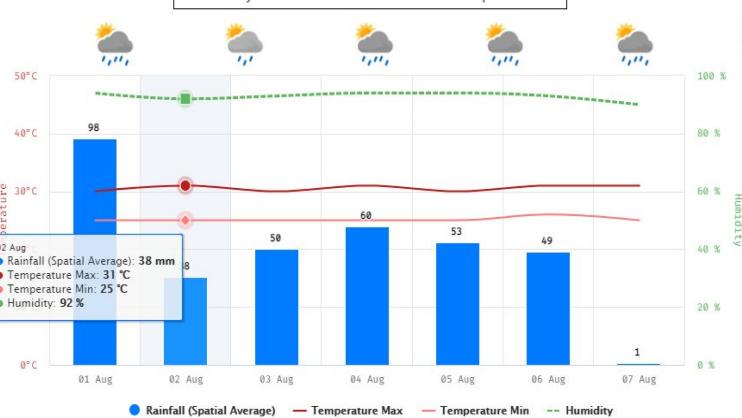

### Flash Flood Thresholds

Lead Time	Alert with accumulated rainfall (mm)	
24 Hours	● 24 Hours accumulated precipitation < 12.6mm 152mm	● 24 Hours accumulated precipitation > 152mm
